REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: In combination with all the limitations recited in the independent claim, all the prior arts do not show a connection system comprising a mounting shell having a bay for receiving an insulative insert frame with multiple rows and columns of through passage and multiple doubled-ended insert contacts in one of the passages, a quad terminator having four quad contacts connected to a quad cable conductors, and a backshell adaptor having a bore for receiving the quad terminator. The quad terminator has an insulator, the quad contacts have front ends projecting forward of the insulator, and the quad terminator is free of a main shield portion surrounding all four of the quad contact front ends so each contact front end can fit into a rear end of one of insert frame passages and mate with one of insert contacts. The backshell adaptor abuts the insert rear end of the insert lying in the bay such that the four quad contact front ends project from the front end of the backshell adaptor into a different one of four of the passages of the insert frame and mates with a rear end of a different one of the four insert contacts.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hae M. Hyeon whose telephone number is 571-272-2093. The examiner can normally be reached on Mon.-Fri. (8:30-5:30).
